VOL. 4 SUBJECT INDEX

A

Abnormal, 235-248
Alliance, 121-139
Anxiety disorders, 29-39
Athletes, 189-207

B

Batterer, 307-334

C

Case-control design, 359-376
Child abuse, 307-334
Classification, 267-271, 281-284
Clinical child psychology, 29-39
Clinical judgment, 335-345
Clinical knowledge, 91-98
Cognitive-behavioral, 153-174
Cognitive-behavioral treatment and research, 29-39
Cognitive biases, 99-120
Cohort design, 359-376
Completed suicide, 359-376
Conceptual foundations, 249-258
Contextualism, 140-152
Continuum, 12-28
Credentials, 91-98
Culture, 262-266
Cycle of violence, 307-335

D

Debiasing, 335-345
Deception, 377-387
Defensiveness, 377-387
Definition, 235-248
Dependency, 175-187
Dependent personality disorder, 175-187

Depression, 53-65

Diagnosis, 175-187, 262-266, 272-275, 281-284

Dialectical, 12-28

Diathesis-stress, 346-358

Disability, 249-258, 288-289

Disease model, 272-275

Dissemination, 1-11

Domestic violence, 307-334

Drug addiction, 53-65

DSM-IV, 175-187, 276-280, 281-284

Dysfunction, 249-258

E

Eclectic, 235-248
Effectiveness, 40-43
Empirically evaluated treatments, 29-39
Empirically validated treatments, 1-11
Evidence, 91-98
Experience, 44-52, 91-98
External validity, 175-187

F

Factitious disorder, 346-358
Faking, 377-387
Family dysfunction, 285-287
Family violence, 307-334

H

Harmful dysfunction, 259-261
Heuristics, 335-345
Hierarchical structure, 267-271

I

Imagery, 189-207
Interpersonal violence, 307-334
Interpretation, 121-139

J

Judgment, 99-120

M

Malingering, 377-387
Maltreated children, 307-334
Maltreatment, 307-334
Managed health care, 66-75
Medical disorder, 259-261
Mental disorder, 235-248, 249-258, 262-266, 276-280, 259-261
Mental practice, 189-207
Meta-analysis, 291-306
Metacommunication, 121-139
Multiple relationships, 225-234
Multistable, 12-28
Munchausen syndrome, 346-358

N

Naturalism, 83-89
Nocturnal panic, 153-174
Nonlinear, 12-28

O

Outcome, 53-65, 83-89
Outcome Questionnaire, 66-75
Overconfidence, 335-345

P

Panic disorder, 153-174
Personality, 12-28
Personality assessment, 99-120
Personality clusters, 208-224
Personality disorders, 359-376
Pluralism, 140-152
Postmodernism, 83-89, 140-152
Prediction, 99-120

Process, 121-139
Psychiatry, 276-280
Psychodiagnostics, 99-120
Psychopathology, 235-248, 249-258,
276-280, 272-275, 281-284,
285-287, 288-289
Psychophysiology, 153-174
Psychotherapists, 44-52, 53-65
Psychotherapy, 1-11, 40-43, 44-52,
53-65, 76-82, 83-89, 121-139
Psychotherapy integration, 140-152
Psychotherapy outcome, 66-75
Psychotherapy research, 1-11
Public policy, 272-275

R

Relational factors, 285-287

Relationship, 44-52
Rural psychology, 225-234

S

Schema, 12-28
Set theory, 267-271
Simulation, 377-387
Sleep, 153-174
Social dysfunction, 272-275
Social phobia, 291-306
Sport, 189-207
Spouse abuse, 307-334
Suicide factors, 208-224

T

Taxonomy, 208-224, 267-271
Technique, 83-89

Therapist, 83-89
Therapist contribution, 40-43
Therapist effects, 66-75
Therapist factor, 76-82
Therapist variables, 66-75
Therapy manuals, 76-82
Time-limited dynamic psychotherapy,
76-82
Training, 44-52
Treatment, 276-280
Treatment manuals, 1-11
Treatment outcome, 291-306

V

Values, 262-266
Visualization, 189-207
